ABOUT ME

I love music, writing, design and creating.

Most of my songs begin with a thought, a memory, a person, a feeling, or a sentence I cannot ignore.

This journal holds my songs, their stories, and the imagination that shaped them.

WHERE IT STARTED

I started writing because I've always had random thoughts, feelings and little moments that stayed in my head longer than they should. Sometimes it was something I experienced, sometimes something I imagined, and sometimes it was just one line that suddenly felt like a song.

What started as writing for myself slowly became a way of telling stories my way ♡

01 — SHADES OF U

A song about someone very close to me who makes everything feel softer.

02 — MY FRIEND LIKES U

Inspired by a friend and the feelings around their story.

03 — LAST BENCH CRUSH

A sweet school crush full of glances, butterflies and daydreams.

04 — WISHING WELL

A sad love story about holding on while something slowly fades.

05 — SWEETS FROM NEXT DOOR

A warm, happy love story made from simple little moments.

WHY I CREATED THIS

I created this because I did not want my songs to exist only as lyrics.

I wanted people to understand the feeling behind them, the imagination that shaped them, and the reasons they were written.

Creating is not only about making something beautiful. It is about giving a feeling a place to live.
A story to tell everyone

THE IDEA BEHIND IT

Sometimes writing helps me understand a feeling. Sometimes it helps me keep a moment. Sometimes I love turning one random thought into something that feels like mine.

I don't just want to remember what I wrote. I want to remember what made me write it.

MY OWN NOTE "somewhere between the lyrics, i find myself. ♡"

A MESSAGE

If my songs or words connect with you, I
would love to hear from you.

Some feelings leave. Some stay. Some become songs.

Maybe that's why I write - to keep a version of a moment
before it changes.
